JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

25 cases, 1 death; Buckland and vicinity, 53 cases; *New Hampshire, 17 cases; Geyers, 11 cases; St. Marys and vicinity, 7 cases; Uniopolis, 1 case; Botkins, 1 case, doubtful; Wayne Township, Auglaize County, 2 cases; West Newton, 5 cases; *Stokes Township, Logan County, 11 cases; *Sandusky, 6 cases; New Paris, 1 case; Dayton, 1 case; *Washington Township, Auglaize County, 2 cases; *Celina, 1 case; *near St Johns, Auglaize County, 5 cases.

Delphos and Van Wert.—The first cases appeared at Delphos and Van Wert in May. Origin is not positively known, but is suspected to be Uncle Tom's Cabin show, which was at Van Wert April 18 and Delphos April 25; 17 cases appeared at Van Wert, and 17 cases at Delphos and vicinity.

Curroll.—Smallpox appeared at Carroll, Fairfield County, on March 7, in the person of Solomon Smith, who came from Way Cross, Ga., on March 2 and died on March 13. Twelve cases and 1 death at Carroll. One case developed at Columbus, traceable to this outbreak.

Goshen.—Smallpox appeared at Goshen on May 28; traceable to Uncle Tom's Cabin show, which was at Loveland on May 14. In Goshen and vicinity there were 27 cases.

Marysville.—Smallpox appeared at *Marysville May 13, traceable to Uncle Tom's Cabin show, which was there April 29. Thirty-six cases have been investigated, the exact number is not yet known. Five cases at *Amlin, Franklin County, and a number of cases at *Hamilton are traceable to Marysville. The exact number at Hamilton is not yet known.

New Carlisle.—Smallpox appeared at New Carlisle and *vicinity May 10, traceable to Uncle Tom's Cabin show, which was there April 28. Sixty-two cases have been traced to this source; the exact number that developed is not yet known. There has been 1 death.

Loveland.—Smallpox appeared at Loveland the latter part of May, traced to Uncle Tom's Cabin show, which was there from May 1 to 14. In *Loveland and vicinity, 75 cases and 1 death are reported. The exact number that developed is not yet known. Three cases at Center, Montgomery County, and 21 cases at Wyoming are probably traceable to Loveland.

Miscellaneous.—Smallpox has been reported at the following places, origin unknown: *Cleveland, 16 cases; *Cincinnati, 16 cases; Oberlin, 1 case; Put-in-Bay, 27 cases, 1 death; Bays, 3 cases; Columbus Grove, 1 case; *Sandusky, 17 cases; *Lancaster, 1 case; *near Belmore, Putnam County, 2 cases; *Antioch College, Yellow Springs, 1 case; *Mineral Point, 1 case; *near Selma, Madison County, 1 case; *Newark, 1 case, traceable to Sandusky.

Case of smallpox in Pittsburg, Pa.

PITTSBURG, PA., December 28, 1898.

SIR: I have the honor to report that a case of smallpox was found in Mercy Hospital, medical ward, on Sunday, December 25. The case was sent to the pesthouse, and all proper precautions taken to prevent the development of other cases.

Very respectfully,

C. T. PECKHAM,
Surgeon, U. S. M. H. S.

* Indicates disease still present.
